Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully stood a competitive trial for many years. The Inventor claims for this Dip the following advantages—
1st—It is instantly and completely soluble in either warm or cold water.
2nd—It is non poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd—It is a certain preventive, and perfect cure for SCAB.
4th—It most effectually destroys Red Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Cattle.
5th—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th—It is invaluable for protecting the Sheep from the attacks of Flies and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by th Inventor in England, and is of course very superior to the many Dips made in this country.

ZOEDONE

ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE
Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoodone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indications as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."
Letter from Geo. S. A. Ranking, M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

CICERO.
WEDNESDAY, JUNE 15, 1881.

THE 11 SETIEMBRE MARKET.

If the new Continental Exhibition, as is announced, is to be opened to the public on the 15th of next February, it is, perhaps, a fair question to put to the Government where are all the bullock carts with wool, hides, sheepskins and wheat are to go to, since the date fixed for the opening of this Exhibition is the busiest time for the sheepfarmers and chacreros? Shearing begins in October, and early in November wool comes to the Plaza Once by train and by bullock cart. If the Exhibition is to be opened to the public in February, then it is quite clear that the whole Plaza will be in the hands of the Club Industrial and its workmen in October, which, of course, will preclude the possibility of any produce being brought into the plaza for sale. It stands to reason, therefore, that for the coming season all produce for the North Market must come in by train, and all bullock carts loaded outside in the camp must, of necessity, either stop at Flores ta or go to the South Market.

The National Government, in giving to the Club Industrial the Plaza Once Setiembre for its Exhibition, should have taken the precaution that this industrial fete should not interfere with the trade, commerce, and industry of the country, and Dr. del Viso, our talented Minister of the Interior, can rescue the farmers, barraqueros and wool buyers from immense inconvenience by notifying the Club Industrial that it can only hold its Exhibition in the 11 de Setiembre during the winter months, when the square is empty and the Exhibition will cause no inconvenience to the market.

It is very remarkable with what facility steps the most injurious, not only to vested interests but to the trade of the country, are taken by men whose programme is the industrial prosperity of the Plate. A more objectionable measure than the sequestration of this Plaza by the Government, or the Club Industrial, in the summer months could hardly be devised. The bricklayers, carpenters and other employees of the Club will make the Plaza their own, perhaps, next month, and we shall have the mockery of an industrial temple raising its head over a site consecrated by law, by custom, by convenience and by usage, to the sale of wool and other produce belonging to farmers in the northern partidos of this province.

It is a notorious fact, that in the height of the busy season the deposits of the Western Railway of the Once Setiembre are insufficient to hold the produce coming into market. In view of this insufficiency the Directors of the Western Railway have been peddling about, buying up small sites and trying to keep up with the great traffic on the line by the addition of a few small deposits, but the trade of the North and West is growing so very rapidly, that every year there is an increased squeeze at the railway deposits, and what the interests of the country demand, namely, large roomy deposits, the directors have neither the land to build them on nor the foresight to secure those lands before the growing prosperity of the city adds a hundred-fold to their present value.

This delightful freak of the Industrial Club, in getting possession of one of the principal markets for our produce will, of necessity, magnify the requirements of the Western Railway; and the probabilities are this season that the Government, when the produce comes crushing into town without any means for its accommodation, will be compelled to expropriate all the barracas in the vicinity of the Once market, since with the rapidly-increasing production of wool, of wheat, maize and lino, and the augmented facility for bringing the produce to town by the extension of the Western Railway, we shall have a greater agglomeration of produce at the Plaza Once this season than ever before.

It behoves the National Government to notify the Club Industrial that the opening of their Exhibition must be postponed to 1882, and if the workmen are to be allowed to commence operations in the market this winter, they must begin their work in such a manner that they will not interrupt the entry of bullock carts with produce from the camp.

RIO NEGRO COLONIZATION.

A very sensible communication in one of the morning papers on the arrival of Chubut colonists leads one to consider the prospects of a like enterprise on the banks of the Rio Negro. The Chubut colony only gave results sixteen years after its formation: the river periodically inundated the adjoining banks, and the climate was one where rain was scarce: the first colonists were inexperienced, and had the difficulties inherent to all beginnings to contend with. It was, therefore, no surprise if the colony did not thrive, until a thorough knowledge of land and climate had taught the older colonists to overcome the obstacles to their projects. The recent arrival of Welsh emigrants from Europe points to the necessity of forming the nucleus of a new Welsh colony, and no place is better adapted for the purpose than the fertile banks of the Rio Negro.

Inexperienced colonists would have to contend on the Rio Negro, with varying success, against the same difficulties that attended the Chubut colony. The Rio Negro lands are much better than those of Chubut, but dykes and canals must be likewise used to utilize the waters of the river. The National Government greatly desires to foment colonisation on the frontier river, as is apparent to all who have studied present Government policy: and to insure the success of this great purpose a colony must be formed, comprising the most intelligent and experienced colonists in the Argentine Republic; none are better suited for the purpose than the old Chubut settlers, who, should advantageous offers be made, would no doubt, accept the enterprize and turn the desert banks of the Rio Negro into smiling wheat fields.

Any moderate political foresight comprehends the importance of the successful result of the first colony on the Rio Negro. Failure, on the other hand, would frighten people from the place, and the ruin of the first efforts would paralyze the success of any further enterprize of the kind. All depends on this first nucleus, and its prolific result would be a magnet to the emigrant, who, as we all witness, prefers paying dear for the land he buys in Santa Fe, rather than risk his future on Government free lands in the South of this province.

Should no Chubut settlers be willing to settle on the South of the Rio Negro, the Government can resort to the enterprizing Ausonian: an 'Italia redenta' would flock to the place and settle on the Po of South America. Energy and enterprise would change the face of the Republic. Santa Fe would be a Solar speck in comparison to the future of the Rio Negro. The periodical overflowing of the Negro will effect for Patagonia what the Nile does for Egypt: there, since the days of Menes, the Nile, true as fate, floods the shores with prosperity, and could we only borrow the stamina of the old Egyptian, we might erect pyramids on the Rio Negro to gauge the prosperity of its shores. Millions of inhabitants can settle in that valley, and the waters of the river extend to the Nahuel Huapi, where, according to General Villegas, the Republic might accommodate an European Empire. With all these advantages at our doors, the Government and Congress have not yet passed a law of colonization to people those parts.

The project of the Government, we understand, is before Congress, and it is to be hoped that the Honourable Assembly will soon sanction the Bill, which is calculated to throw some hundreds of thousands of people from Europe into the immense frontiers of the country. If in 1873, with the Indians at Azul and Junin, close on 100,000 emigrants landed in Buenos Ayres, it is only fair to expect double that number in ensuing years when the Republic has more public lands at its disposal than any other country in this hemisphere. Before the year ends the Government will be running two Villarinos down to the Rio Negro, to transport troops of emigrants, trusting to the privileges of a new homestead law.

OUR SUGAR INDUSTRY.

Let us glance at the extreme North of the Republic and see how the spirit of Progress is palpitating in every part of it. We will say nothing of Tucuman and Santiago del Estero, their advantageous position being well known. Salta and Jujuy have as yet won no renown as sugar producing provinces, but the following official report shows how they stand in this respect—

"In Salta province there are 258 squares under cane. The harvest of 1880 was one of the worst, owing to want of rain. In all Salta only 17,600 arrobes of sugar were turned out. The yearly planting of cane can not be estimated, as, except on a new plantation, it is only done to replace the old canes.

"There are 8 mills; two of them work on the vacuum principle; the others using the 'direct fire' and purifying the sugar in jars of burnt clay These mills also turned out, in 1880, 3500 arrobes of 'chancaca,' 5175 of molasses ('miel') and 2050 barrels of spirits of wine; the first selling at $f.1.68 the arrobe, the second at 84 cents, and the last at 2.10 to 2.80, according to strength.

"The cultivation of each square of cane costs $f 53.16, and the manufacture of the cane $f.117.60. Each square square gives 300 arrs. of sugar under the new system, and half that by the old. The province of Salta has, lying idle, immense tracts suitable for sugar planting. The department of Oran is all susceptible of irrigation, from Rio de las Piedras to Bolivia, along the banks of the rivers, and in the departments of Rosario de la Frontera and Metan. As yet only experimental trials have been made in these departments, but they were most satisfactory, and there would be many mills there to-day but for the want of capital. When the Central Railway passes through Rosario and Metan these two departments will become a vast sugar plantation.

In this province (Salta) it is only in the department of Campo Santo that sugar is grown. The Sedesma, San Pedro, San Lorenzo, Reduccion, Palos Blancos and other plantations, although in Jujuy, are owned by Saltenos, and produce as follows—

Ledesma, 135 square squares, produced in 1880, 35 ar. sugar and 890 brls aguardiente.

San Pedro, 45 squares, 10,300 ar. sugar and 350 brls aguardiente.

San Lorenzo, 44 squares, 6000 ar. sugar and 750 brls aguardiente.

Palos Blancos, 25 squares, 1200 ar. sugar, 300 brls aguardiente, 800 ar. chanceca, 650 ar. molasses.

Ledesma and San Pedro work on the vacuum pan system, the others by direct heat. All these establishments, and some two or three more, combined employed 1500 Matacos Indians from the Chaco, accompanied by their wives and families, making some 7500 souls in all, and consuming 75 canes daily, equal to 374 arrobes, or a loss to the proprietors of 44,000 arrobes of sugar in the four harvest months.

As the arrobe of sugar sells for $B.3.75 in Salta, the 44,000 ar. are equal to $f.165,000, or 110 Bols. for each of the 1500 Indians, who are paid besides $f.11.75 monthly between wages and rations, so that each Indian costs the planter 157 Bols. during the four months. The sugar plantations having produced last year 72,000 arrobes of sugar, and the Indians having consumed 44,000, it can be seen that the latter eat up one quarter of the produce.—*Boletin de Agricultura.*

London, May 20th.

Earl Granville, replying in the House of Peers to Lord Lamington, stated that her Majesty's Government had declined the invitation of Russia and Germany to join a conference for the purpose of considering what practical measures should be adopted in order to prevent the criminal efforts of certain associations. Her Majesty's Government believed they would not have gained any practical results from entering into the proposed conference, and that it would not have been agreeable to Parliament or the country that they should take part in it. Their refusal, however, made it only the more incumbent on them to judiciously apply the law, with a view to prevent crimes being concocted here against the safety of other Governments.

In the House of Commons Sir Charles Dilke laid on the table the first instalment of papers relating to the affairs of Tunis, and declined, pending the production of the remainder of the correspondence, to answer certain questions which were addressed to him on the subject. Mr Chaplin resumed the debate on the Irish Land Bill, which he held to be an unsound and unjust measure. The second reading was supported not only by Mr Stansfeld, Mr A Moore, and Mr Denis O'Conor but by two Ulster Conservatives, Mr Macartney and Mr Close. Mr Parnell declined to take any part in the division, on the ground that Mr Gladstone's scheme was only a half-remedy for admitted evils. Sir S Northcote, who did not rise till after midnight admitted the desirability of legislation on the land question, but he found this bill so exceedingly objectionable on economical grounds, that he and his friends could not vote for the second reading. The Marquis of Hartington replied on behalf of the Government. On a division Lord Elcho's amendment was negatived by 352 votes to 176, and the second reading of the Bill was then agreed to.

More popular demonstrations have been made in various parts of Italy, and much excitement prevails. Signor Sella still continues his endeavours to form a new Cabinet.

Our Vienna correspondent telegraphs that great indignation exists in that city relative to the charges brought against Midhat Pasha. The opinion is expressed that a plot has been formed to destroy the Pasha, and suggestions are made that the Powers should protect him.

Panslavist policy, according to our telegrams from Moscow, is to be the union of all Slavs under a supreme Autocrat, whilst the people are to hold the soil on Communistic principles. Aggressive wars are expected to be the result of the recent changes of Ministers in St. Petersburg.

After a stirring debate, in which M Gambetta delivered a remarkable speech, the French Chamber of Deputies yesterday adopted the principle of voting by 'scrutin de liste' by 299 to 223, afterwards passing the measure authorising the change in its entirety, with only a slight discussion.

Amongst foreign bonds, Argentine Hard Dollars and Turkish improved; but Peruvian and Russian declined. About £10,000 in gold was sent into the Bank.

EDITOR'S TABLE.

The R.M.S. Mondego sails this afternoon. Mails close at 1 o'clock sharp. The Rev. Father Martin and Mr and Mrs Carthy and party will leave the Central Station at 12.25 for the Boca, where a special steamer—the Sol Argentino—chartered by Mr Carthy, will be in readiness to convey them to the Mondego. We wish the travellers a most prosperous voyage, enjoyment at home, and a speedy return to their hosts of friends here.

The news from Europe by the Galicia shows that the new Czar of Russia must be 'off his head,' and it is to be feared that, if he does not grant reforms, his head will soon be off him, as the Nihilists seem as determined as ever. The news that the Emperor had pardoned the woman Helfman, at the Empress's request, turns out to be false. Whenever a Nihilist is absent from his home now for more than twelve hours, he is considered to have been arrested, and his papers are at once burned by his fellow conspirators. The Germans are determined that no man, rich or poor, shall be deprived of his beer. The Reichstag has thrown out by an enormous majority the tax on Beer lately proposed by Bismarck. Count Arnim, the great Chancellor's bitter enemy, died lately at Nice. When the mail left the Irish Land Bill had passed the Commons by a large majority.

Boito's Mephistopheles is being rehearsed at the Colon Theatre, and will be produced next week.

It looks as if we shall have to wait for the next change in the moon to get a glimpse of the sun again. Yesterday was as dull and muggy as any day last week, and everybody looked as damp as Wilkie Collins's Woman of that ilk. The sheep farmers, however, are praying for another ten days of the present weather.

The courteous Secretary of H.E. the President of the Republic has rather a busy post. It is stated that, since the 12th October last, he has answered no fewer than 5600 letters and notes. This is 23 and ⅔ letters a day, including Sundays and holidays, and an editor could hardly work harder.

The latest Army List of that mighty republic, Venezuela, shows 32,222 Generals in active service, of whom 8000 were appointed by the present President, Guzman Blanco. What about the Retired List? Of course the whole country is going to the dogs as fast as it can.

The question as to whether the students in ecclesiastical seminaries are liable to service in the National Guards has been decided. The Minister of War says the law makes no exception in their favour, and they must serve.

The Skating Rink is now literally crammed every evening with the prettiest dames and damsels in Buenos Aires, 'Avis aux gommeux.'

There was nothing fresh about the banditti at Puan yesterday, but it is hoped that, by this time, they have been overtaken by the troops, if nothing in the 'falta de caballos' line has turned up. It is said that the Indian raiders are from Catriel's colony, on the Rio Negro. Nice colonists.

There was a large meeting of the shareholders of the Cloth Factory on Sunday, and they decided to emit Debentures to try and save the concern from the auctioneer's hammer. Throwing good money after bad.

The removal of capital cities to other sites seems to be coming into fashion. Bismarck is anxious to remove the capital of Germany to Cassel, and we hear that the Government of Rioja has a similar idea in its head, or heads, and intends to make Chilecito the chief town of that province. In Russia there is a movement to get back to Moscow, and 'quien sabe' when Gladstone and Gambetta may be bitten by the mania and try to knock London and Paris from their high estate? The times are evidently out of joint.

We publish in another column some saccharine intelligence about Salta and Jujuy. There is an enormous field up there for sugar growing, and this Republic will soon be the sweetest spot on earth, not even excepting 'sweet Innisfallen' or the Vale of Avoca.

The Chasco Memorial Fund is growing slowly and surely. Just as it ought. A recognition of this kind, of duty done well and quickly, will stimulate other officials to go and do likewise. Many people regret that all the assassins did not 'try to escape' from Mr Casco's clutches.

Oh! Congress is soon to be favoured with the most tremendous project hatched yet—the solution of the problem of Ærial Navigation! A Mr. Macias, of Rio Cuarto, has solved it, at least he says so, and intends to invite all the members of Congress to make a trip with him. Who would have expected a ballooning project from, of all places in the world, Rio Cuarto, the finest district in the Republic for breeding horned cattle.

There was a trial of Locht's Pantelephone last night at the Minerva, in Calle Florida, and we regret that a previous engagement preventad the acceptance of the kind invitation to attend sent to us by the 'empresarios.'

A fellow named Delgado has been arrested at Merlo for having attempted murder and perpetrated matrimony on two occasions. Both wives are very young, and respectable persons. In personal appearance the 'gay deceiver' is by no means 'delgado', but rather burly, and fully 40 years of age.

Whoever wants to read the real progress of the Interior should keep an eye on the Rosario Custom House. Its receipts during May were $622,000 fts. ! ! ! This is such a wonderful figure for Rosario that many will think there must be some mistake in it. San Nicolas, Gualeguaychu, La Paz, Bella Vista and San Pedro gave 100,000 pats between them.

An 'individuo' bearing the romantic name of 'John' attacked a former lady-love of his some nights ago, at her residence in Calle Alsina, because she refused to return to him a Connecticut wooden clock which he had given her when under the magic influence of 'Love's young Dream.' 'Love not, love not, the thing you love may die,' sang Johannes as he rushed at her with a big 'cuchillo'; but the lady defended herself so pluckily with her teeth and nails that the police came in and secured John before he could do her any serious injury.

Governor Gallino, of Corrientes had a narrow escape of being shot dead lately at Empedrado. While visiting at the house of a friend, a gentleman present let his revolver fall and it went off, the bullet lodging in the wall, an inch over where the Governor was seated, sipping mate, or port wine, we forget which. We congratulate the Governor on his very narrow escape, and would suggest a change of fashion in Empedrado high life. In Buenos Aires or Paris it is not considered quite the correct thing to carry revolvers into the drawing-room. We see, in an American colleague, that, in Texas, revolvers are considered indispensable at weddings there, and the question as to how these 'favours' should be worn is agitating polite society in that quarter; but we much prefer the custom of leaving them at home on festive occasions, and we feel certain that Governor Gallino will agree with us.

The Provincial Deputies unanimously passed the bill granting a pension to the veteran educationist Dr J M Larsen. This gentleman has been the Mentor of all the rising Argentines of the day; he has devoted thirty years to the education of the rising generation. He may now retire with his laurels and devote his leisure hours to the uninterrupted study of those sciences which have immortalized the names of Muller, Schöll, Jacques, Maspero, etc.

There was rather unpleasant news from the Santa Fe wheat colonies yesterday—five mills stopped for want of wheat, and others expected to shut up soon.

The bulls won the day in the gold market to-day and carried prices to 27.10, after which things weakened and prices closed cash at 27. The sales cash reached 110,700 pats, but the great business of the day was for the end of the month Some 900,00 pats bought back to conclude transactions; prices for that date opened at 26.90, ran up to 27.05 and closed at 26.95. For July sales at 26.85, closing at 26.75, and for August at 26.75, closing at 26.60. The gold market rules most excited, and although the Government broker sold, it was said, some 250,000 pats it had no effect on the market. Of course, if the National Minister enters the exchange market and draws for any large amount it will necessarily break the market, but in the absence of this the market is completely under the control of the bulls, who spare no effort to alarm the market and drive prices up. The gold sales for the day reached over 1½ million pats. were gold at a fixed price, perhaps 50,000 pats; would be more than sufficient for the market requirements.

Speculators continue to bear the Cedula market, and between yesterday and to-day over a million of Cedulas sold, chiefly on speculation. The stock to-day resisted the attack and prices closed firm at 98½.

Nat. Bank shares ruled weak and fell off about one per cent, the business in the stock was not to say large, and prices for the end of July closed 98¾, sellers.

Bonos Provinciales at ½ prem., and Emp. Popular at 2 prem.

The mails from London per Galicia have spread sunshine over the market. The telegram in the *Times* of May 10th, announced the opening of Congress and the President's message; the London papers are to 20th May.

Rentas Loan 102
Public Works 98
Cent. Argentine 24
G. Southern Railway 163
Hard Dollars 86½.

We may remind our readers that as appears by the London papers, unified Egyptians that in the year 1878 were so much preferred to Argentines are at 77½, whilst Argentine 1560 are at 102, and Spanish 3 p cents are just 23¾, whilst Arg. Public Works are 98. The people in London who in 1878 preferred these stocks to Argentines have had time to change their mind.

The growth of the National Revenue is the growth of the country; the receipts at our Custom Houses are ahead of every previous year, and the receipts at the other Custom Houses also show splendidly for the country. The following are the returns for some of the Custom Houses for month of May:

Rosario.....	$f.622,279
Gualeguaychu ...	40,185
La Paz.....	6,992
Bella Vista.....	14,552
San Pedro.....	3,673

It will be seen by the foregoing that Rosario Custom House now gives much more than the Montevidean Custom House.

The sale of another lot of Oil Gas Shares at 1,800 per share shows how rapidly this stock is advancing, and the shares seem splendid buying, not only on account of the large business the Company is doing but also that at last the debt due the Company by the Municipality, some 16 or 17 millions, will soon be paid; this large amount is recognised by the Municipality and heads the list of debts for which the new Municipal loan is raised to pay off, and then, of course, on the payment of this debt by the Municipality the shares will be cheap at 2,500 or 3,000 m/c each. There is we believe no stock in this market to rival the Old Gas Shares, they surpass the Liebig Fabric Co., and the consumption of gas in the city now is greater than ever.

Circulars were sent round to-day signed by Mr Pedro Luro, announcing that his son Dr Dn Santiago Luro has entered the firm, which will henceforward be Pedro Luro & Son.

The *Pampa* published this morning a very strong article on the Currency question, which was the talk of the Bolsa. Our colleague suggests that the Bank should bring out and keep for two years in its vaults seven millions pats gold, and give due notice to the market of the date when it will pay gold for its notes. So much delay has attended the Romero project that many doubt its ultimate success—but whoever doubts loses.

Yesterday the Provincial Minister of Government had a long interview with the National Minister of Hacienda, Dr. Romero, it is supposed about the project, which, we hear, to-morrow goes before Congress.

The R.M.S. Mondego clears to-morrow; she will take a good cargo, heavy nails and a fair passenger list.

Exchange was done to-day at 49, very first class paper, but there are few takers. All the banks are drawing, not taking, and it is plain that the market owes nothing in Europe, whilst Europe owes millions to this market, owing to new loans &c.

At 4 o'clock the *National* came on 'Change, and the Message of the Prov. Executive to the Chambers was read by all with the very greatest attention. The message is too long for our columns at this moment, but we shall give it to-morrow. It is an admirable resumen of the 'curso forzoso' question, and reflects the greatest credit on Governor Rocha and his excellent Ministers Dr D'Amico and Sr Uriburu. It is plainly evident from this masterly document how sincere the Prov. Government is in helping the Nat. Government to abolish forced currency. A member of the legislature on 'Change stated that the bill would be passed and without delay, so those who believe in the permanence of forced currency in this country will have now a fresh document to study.

The gold market turned twice to-day, and having touched 27.10, jumped at a bound down to 26.75; such great fluctuations very plainly show what is going on in the market. Dr Romero, Minister of Hacienda, may not be aware of what the great gold speculators say. It may be useful to tell him that they industriously spread the rumour to-day that the reason why he does not draw against the loan is that the money is already all exhausted, and that there is nothing more to draw against; so far from this being true, we believe the balance the Government has to its credit in Paris is over 1½ millions sterling besides £200,000 lying at its bankers to its credit in London. The gold market is in such a critical state, owing to undue speculation, that the people who are one day for a rise are the next day for a fall, and it is to be regretted that the National Minister, who holds the most supreme power over the market does not think proper to take certain steps which would calm the present speculation; gold at afternours having run down to 26.75, reacted, and at 4 o'clock, when the bell rang the market closed buyers for to-morrow at 26.85. To-morrow being the 15th, the account day in the middle of the month, there will be a heavy business to close, and fresh gold must be brought on the market to check the bulls.

Mr P D Gallagher of Lima was welcomed on Change, he arrived by the Pacific steamer from the West Coast.

Telegrams from Europe were received to-day increasing the limits on wool from 3 to 4 per cent, but all the wool men say that prices here are still too high for Europe, an effort is being made by some consignatarios to let go their wool at the moment, which we trust will succeed, as the keeping up of wool in deposit at so advanced a stage in the season is a great error, and a serious check to the legit mate business in the market.

We were favored with a telegram to day from the Santa Fe wheat colonies which gives news of some importance—

"Five mills stopped for want of wheat, viz: Draz, Fritschy, Necollier, Zamboni and San Agustin.

"Others expected to follow at the end of the month."

Stock of flour and wheat 70,000 bags; from this amount must be deducted local consumption till end Dec. 30,000 bags, and for Corrientes and Entre Rios 25,000 bags, leaving for the Buenos Aires market 15,000 bags. This news for those in the trade is of great importance, although it must be remembered that the stock of flour in the country this year is far greater than ever before at this period.

Cedulas at after hours ruled buyers at 98½, market strong. Nat. Bank Shares more in demand, buyers at 98 for end of month, and 99 for end of July.

The Herschell arrived to-day with dates to 19th May from Liverpool. She brings for this port 1,000 tons cargo; as there is no steamer to-night she brings up her own mails on 16th.

Exchange was passed at 49d, but the banks refuse to take at even 49½, and all the brokers say no takers.

Letters received from London state that everything Argentine is in the ascendant in that market, and that there is far more business going on there in Argentine stocks than in B. Aires. A telegram sent from here stating that the coupon would be paid in gold was greatly talked about in London; the message was a most incautious one for any house to send, although we believe at the end of the year the coupon will be paid in gold. What sent up the price of stocks in London chiefly was the bona fide news sent of the opening of Congress by General Roca, and his admirable message, which appeared in the *Times* two days after Congress was opened here. Southern Railway and Central Argentine Railway Shares showed the greatest rise of all.

The Sales at afternours were—

The mails from Rio Janeiro bring the following latest commercial news:—

"Exchange—Our market, notwithstanding the limited business done in produce during the last week, has remained very firm, and a slight advance in rates for Bank bills has been conceded.

"On the 2nd inst. Banks opened freely at 21¾ and, although that rate remains unaltered on the 'tabelias', business has been done at 21 13/16 and ⅞, and in second hands at 21 15/16.

"Commercial bills have been scarce, and the few transactions reported were at 21 13/16 [with facilities of payment], 21¾, 15/16 and 22d.

"The market closes very firm, little money for Banks at 21¾ and few takers of Commercial bills under 22d.

"On Paris the Bank rate is 437 reis franc, but other bills have been passed at 433 to 428 reis.

"The business reported by the Board of Brokers in the 2nd half of May was:—
£575,610 at 21¾ to 22d.
Fcs.1,581,343 at 451 to 431 reis.
Rm.266,968 at 540 to 540 reis

"Politics in Montevideo continue unsettled.

"Coffee has rallied in the U States to 11 to 11½ cents, and in Europe about 2s per cent, and we have witnessed both here and in Santos almost exclusive business going on for Europe, the American trade not appearing inclined to endorse this extraordinary movement, and faith having been greatly shaken in this our only important export.

"The representative here of Messrs Roach & Sons notified the Post Office that they had decided to withdraw the steamers from the New York and Rio de Janeiro line in consequence of the legislative imposition of an impracticable call at Maranham and of non-payment of subsidy. We learn, however, that there is likelihood of an arrangement being come to in the matter, and that the country will not be deprived of a service which has given great stimulus to the trade of the two countries.

"A telegram reports the destruction by fire and sinking off Ceara of the steamer Glenlogan, of the Merchants' Line, with a cargo of naptha, drygoods and furniture from New York for Bahia.

"News has been received that the Canada Company has organised and will commence the service next month with three chartered steamers."

Por orden del Sr Juez de Primera Instancia
El Jueves 16 de Junio
A la una del dia

Venderemos por orden del Sr Juez de 1ra Instancia Dr D Miguel Noguera y como perteneciente a la testamentaria de D Juan Labeyrie, dos majadas de ovejas mestizas de Rambouillet de clase superior segun informes que nos son transmitidos.

Las majadas se encuentran una en el campo del Sr Don Zenon Calderon y la otra en la graseria y Saladero del finado. La primera esta tasada en la suma de $30 cada una siendo la base de venta las ⅔ partes es decir $20. Las segundas (las que estan en la graseria) estan tasadas en $40 m/c cada una siendo su base de venta las ⅔ partes que son $27.

Tanto unas como otras, son ovejas superiores y su tasacion baja responde unicamente al proposito de llevar concurrencia.

Oportunamente daremos la señal de las majadas y otros datos.

Venderemos por cualquier precio por cuenta esclusiva de sus propietarios:

Cien leguas de campo, en lotes desde 2 hasta el numero que se desee.

Importantisimo, leer esto

La practica nos ha enseñado, como asi mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a remate ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierra, sin que los interesados tengan necesidad a pedir datos.

Hemos impreso un folleto, que contiene; 1º El plano de Santa Fe y su vecina Santiago del Estero. 2º El informe del Gobernador de la Provincia, declarando "ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconociendo es el derecho a su enagnacion. 3º Carta del Señor Obligado que ha recorrido los campos durante ames) determinando su ubicacion, buena calidad, ventajas de su adquisicion, condiciones, etc. etc. 4º Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5º Nomina de los linderos y establecimientos importantes inmediatos. 6º Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escritano Sr. D. Victoriano Cabral, que los declara inmejorables y finalmente todo lo perteneto al conocimiento de lo que debe adquirirse,

Este folleto, ase como las entradas para el lunch, se entregaran en nuestra casa a las personas que se dignen venir a solicitarlo.

Pormenores

Estos campos distan solo 5 leguas de las colonias Sunchales y Espin [suizo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Pedro Palacios, Banc. de Londres, Coronel Lacueva, Coronel Jahson. Lindan a mas con los Sres W Paste y Cia, Dr Lawsen, Meyer, Ozeiza, Duchiwitz, Altgelt, Napp, Loisseau, Bonorme, Newton, Mulhall y otros, que adquieren en la misma forma hacen diez años.

La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.

Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.

Hay campo linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.

En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 200 $fts de solo 20 cuadras, luego la legua ha producido ya mil onzas de oro, en 80 concesiones.

Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de nandubay.

Hoy dia, la casa bancaria de los Sres Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del emprestito a razon de 1600 $f, por legua, y estos son superiores y mas cerca de la capital.

Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

Por informes, folletos, planos etc, a nuestra casa San Martin 51. x106 j6

Campo denominado
"LAS CAÑAS,"
Perteneciente a la testamentaria del Sr. Don S. Soriano,
Con poblaciones, galpones, quintas con mas de setenta mil plantas, Alamos, sauces y montes de esquisita fruta, plantados hace mas de 6 a 8 años.
TASACIONES:
Legua de campo $565,000 m|c, Base para la venta 2|3 partes, $376,667.
Poblaciones, galpones, plantas etc., $100,400. Base para la venta 2|3 partes, ps. 66,934 m|c.

En nuestra casa
CALLE VICTORIA 156
El Martes 12 de Julio,
A las 3 de tarde,

Venderemos, sirviendonos de base las 2|3 partes de las tasaciones, y por orden del Sr. Juez de 1ª Instancia, Dr. Bustos, este esplendido campo, pudiendo abonarlo el comprador 1|3 parte al contado y las otras 2|3 firmando letras previa aceptacion del Banco de la Provincia; este campo es magnifico para ovejas y como una prueba de lo excelente podemos garantir a los interesados que los que lo han esplotado han obtenido 22 0|0 de peso en las lanas. Los linderos son por un lado los herederos de Railef, por el otro el Sr Don Antonino Cambaceres, y por los otros varios propietarios.

Campos en las condiciones de este es difícil obtener hoy por precios como en el que se este tasado hace 6 años; los buenos pastos de que esta dotado, aguada y la proximidad al pueblo del Bragado le aseguran un porvenir dentro de pocos anos.

Las poblaciones son las siguientes: Una de 18 vs de frente por 9 de fondo, compuesta de 5 piezas, un galpon de esquila, varias otras piezas, cocina, etc.

La Quinta es de quinientas vs por costado, alambrada con postes de nandubay y zanja, monte de duraznos, quindos, acacias, paraisos, sauces, alamos, tres tablones de alfalfa, dos corrales para ovejas, etc.

Los compradores tienen tiempo de visitar este campo antes del remate, pues ya saben que no dista mas que 4 leguas del Bragado, pudiendo salir de la Capital todos los dias.

Los titulos, que son de primer orden, pueden verse lo mismo que el plano en nuestra casa Victoria 156.

Al mismo tiempo

Venderemos una majada de ovejas mestizas Rambouillet.

Small Estancias or first class Chacras
ON JULY 10th
At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the borders of the Department of Uruguay, 14 leagues from the capital of the Province and 5 or 6 from the town of Villaguay. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofilo de Urquiza and the heirs of Benitez. The pasture is of the first quality suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thursdays, and will leavethem at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $16 or $100 m/c per square of 150 varas, payable as follows—4th part on signing the deeds, and the remainder in instalments with interest at 1 o/o monthly at 1, 2 and 3 years. A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agricultur, and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and labourers to these very fertile and productive lands.

S.S. "MASKELYNE."

Good people pay attention, and I'll sing to you a song;
About a famous Steamship, and I wont detain you long,
She runs out to the River Plate, to the Southward of the Line,
In her House-flag you'll see "L. & H." and her name's the Maskelyne.

CHORUS.

Then stand by, clear the track, let the packet go,
Thirteen knots an hour, that is far from being slow,
Click, clack, the engine goes, like music keeping time,
They will have to hurry up to catch the steamship Maskelyne.

Each Sunday morn at ten o'clock, upon the quarter deck,
We muster in our suits of blue, without a spot or speck,
Clean washed and shaved, with shining boots, fall in and toe the line,
Then we undergo inspection, in the steamship Maskelyne.

'Tis then our brave Commander, the gallant Chevalier,
Presents himself in uniform; he likes our looks, 'tis clear;
Then he salutes the Officers, and says, turning with a smile,
"My sailors are a credit to the steamship Maskelyne."

Now the Officers and Engineers, they are next in my song,
May they always pull together, to get the ship along.
With sail and steam she goes along, and is always up to time,
For there are men that know their work, in the steamship Maskelyne.

Then success to Mr Kelly, our Second in Command;
He keeps the ship in order, and has everything at hand.
Likewise to Mr. Taylor, with heart and hand combined;
They are the very men to start the steamship Maskelyne.

Here's success to her Commander, the gallant Chevalier,
May he enjoy health and happiness, with those he loves so dear;
May the sun of bright prosperity, on his family circle shine,
I'm sure it is the wish of all on board the Maskelyne.

BY D. MALONEY.

THROUGH BUENOS AYRES.

Juarez, 31st May

This town is named after the indomitable Oajaca, Indian ruler of Anahuac, whose ranks your correspondent joined after the termination of the War of Secession, in El Paso del Norte, when that insignificant 'Ultima Thule' of Mexican territory formed the republican seat of Government, the imperialists under Bazaine lording it over all the rest. It seems but yesterday the protracted march by Chihuahua, Durazno, Zacatecas, San Jacinto, Aguas Calientes and Guanajuato, where defeat alternated with victory, but which finally crowned the republican arms with triumph, culminating in the taking of the capital of the Montezumas and the tragedy of Queretaro.

From Buenos Ayres to Chascomus I have nothing to note except that I would advise travellers on the railroad to carry provisions along with them; breakfast given at Altimirano for 25 pesos is a fraud. In Chascomus empty houses and stores were plentiful; store keepers were grumbling that the farther the railroad extends the more business abandons their town, and commerce has gone to the devil; but campmen seemed cheerful over last season's profit and the coming one's prospects, as they discussed sheep dip and toddies around Mr Reeve's table. Their opinions on dips were varied, but the majority by experience preferred John Gravell's especifico, manufactured by Messrs Arthur Hilliard & Co at their soap and candle factory, situated on the outskirts of the town, where they have a candlemaking machine that turns out 9000 candles a day. One of the main ingredients in Gravell's dip is the extract of Cicuta, which detestable weed has been transformed from an obnoxious cumberer of the ground into a valuable member of the Botanical Society. The Messrs Hilliard consume all the Cicuta in the neighborhood and have to send to Dolores and other places for more. The only mercantile house doing much business was that of Auld Brothers, which maintains a firm established connection with the Scotch farmers who own most of the camps, and so their business goes on as in the Chascomus of Auld Lang Syne; but what delighted me most in Chascomus was the lovely lake and its delicious pejerey; the bread is about the worst in the country, the wheat raised being ground in B. Aires.

As in Chascomus so it was in Dolores, the glory had departed with the railroad extension, and numerous unoccupied structures had signs 'to let' hung up; but the Dolordies fix all their hopes of salvation in that their town will be chosen for the new Provincial Capital. Although the condition of the streets alternates between intransitable quagmires and choking dust, Dolores is a handsome city, has beautiful plantations of timber, a superb temple, two theatres, the only penitentiary besides that of Belgrano, and I think it will just suit for the Capital.

They were talking of building a railroad to the port Tuyu; the distance is short and it ought to pay. A first class flour mill has been erected, and wheat culture, though comparatively new in Dolores will, through the liberality of the mill owners, soon take immense strides forward. Before leaving Dolores I wish to render thanks to the very popular Station Master Mr Denzil Ibbetson, from whom many attentions were received. Maypu although not marked in Olazcoaga's new frontier map, is a village of more than 1000 inhabitants, from whence diligences leave daily for the different camps and is the centre of a very extensive transit business. The town consists principally of hotels which all drive a roaring trade; the best of them is Angel Dielmi's, who sets a better table than either the Chascomus or Dolores hosts do, and uses good English Wallsend coal in his kitchen, for wood is very scarce round Maypu. The water in Dolores and Maypu is very nasty, but Dielmi had almost completed a grand algibe for the benefit of his customers. Ayacucho is a hobbledehoy sort of a place, laid out on a large plan and requires padding, but new buildings were going fastly up and commerce was lively, so likewise were the three newspapers in attacking each other and folks generally. In contrast to the soil round Maipu that of Ayacucho is very fertile and agriculture has fairly started; a mill moved by water and steam supplies the home market with flour, but some of the grain comes from Tandil. There is a brewery also which I trust will soon improve, for at present the decoctions sold in Ayacucho remind one of W. P.'s favorite beverage in Rosario, which as he puts it, spoils the gout of champagne and Rosario Bachelors' Balls.

Mr. Corkhill who owns an estancia outside, informs that last year's clear gain on his 20,000 sheep was 32 per cent; farmers who sold their clip early to responsible buyers are satisfied with their season's profits, but a few who held out for higher figures and sold to fly-by-night brokers are despondent; because some buyers who left a small deposit to fix bargains, now that the market has fallen, claim that the farmers are bound by law (it may be for years and it may be for ever) to keep the article until the buyer deems it expedient to remove and pay it. If such a law does exist, I admire, I esteem, I venerate the legislator who framed it. Property is valuable in Ayacucho; an extensive chacra situated in front of the railroad terminus which Mr Corkhill bought a few years ago for $800, has been divided into building lots and returns pots of money. A house upon this land suitable for a restaurant has just been erected at a cost of $90,000, for which Mr Corkhill was offered $4000 per month rent.

In Ayacucho was first seen the famous Wallsend coal which Cork hill states to be worth $200 per cart load and to have been first introduced to the public by Ramsbotham & Co. an English camp firm. Everywhere I roamed people were growling about the slow passenger trains and high tariffs of the Southern Railroad, whilst the engine drivers with more reason complained of being sent to goal too frequently. The manager might hire a squad of beachcombers, place one on each train as flag-engineer, who, when an accident occured could go to the 'Penitentiary' instead of the driver; there are lots who would jump at such a job for rum wages; it would be economical for the company, and I ask no more than a free pass now and again for the suggestion. I have other original hints for railroad managers, but that will do as a specimen for Messrs Cooper, Crabtree, Clark and Chamberlain to ponder over in their leisure hours. I will bid them a long adieu, mount the box seat of the Tandil stage and Ho! for Patagonia.

STATE OF IRELAND.

Dublin, May 19th.

Fourteen farms were sold in Listowel Court-house yesterday under the sheriff's execution for rent. Three of the number were bought by a representative of the Emergency Committee and eleven by the Land League for the tenants. During the proceedings a stone was thrown at Mr Goddard, the Emergency man, from which he narrowly escaped. The proceedings otherwise passed off quietly.

A serious riot occurred on Tuesday night at Killarney, arising out of some ill-feeling between the Royal Marines stationed in the town and some of the civilians. The military charged the people with fixed bayonets, and several men were wounded on both sides. The cause of the ill-feeling is stated to be an alleged insult offered to Bishop M'Carthy by some soldiers.

Daniel Kerane, the Irish-speaking 'suspect' who was arrested some weeks ago under the Coercion Act on a charge of maiming cattle, has been liberated by direction of the Lord-Lieutenant, and was sent to his home at Aunascoul, near Dingle, yesterday morning.

A large force of military and police proceeded, under the command of Major Vandeleur, of the 9th Regiment, and Major Rolleston, R.M., yesterday to New Pallas, Limerick, to aid the sheriff in evictions upon the estate. Early on the march the force was met by a large body of people, who followed them yelling and shouting, and pelting them with stones. Amid a shower of missiles the sheriff succeeded after much difficulty, in evicting a few families, and then proceeded with escort to a distant part of the estate, but it was discovered that the people had left their houses, and had taken possession of a large castle upon the estate, which they had loopholed, put into a thorough state of defence, and rendered so impregnable, that all idea of dislodging the occupants and executing the writs was abandoned for the day. Stones still continued to be showered upon the police and military, and so threatening was the aspect of the people who thronged round the force, that Major Rolleston ordered the police to load their rifles and the military to fix bayonets and to warn the people that if they persevered in their hostile conduct he should read the Riot Act, and if they did not disperse within a short time he should feel it his most painful and awful duty to order the constabulary to fire and the soldiers to charge. This warning had the desired effect, and the people dispersed, but not before Lieutenant Gowan, of the 9th, had received a blow from a cudgel and four persons had been arrested, including Lieutenant Gowan's assailant. This morning a flying column, with four pieces of artillery, will proceed with the sheriff to seek execution of the writs upon the people in the castle.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Reparative Composed of these three Cereals

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.

Aviso Oficial.

Ministerio del Interio

LICTACION.

En la Secretaria del Ministerio del Interior, se recibiran propuestas para la provision de cincuenta mil traviesas de madera dura para la prolongacion del Andino, con arreglo a lo dispuesto en el capitulo 2º de la ley de Obras Publicas y las siguientes bases.

1º Las propuestas se presentaran en pliego cerrado con la firma del proponente o proponentes y seran acompanadas de un documento en que conste haberse efectuado el deposito en el Banco Nacional de mil pesos fuertes en billetes de curso legal a la orden del Gobierno nacional, segun lo dispuesto en el articulo 10 de la ley de Obras Publicas.

2º Las propuestas se entregaran al escribano del Gobierno nacional hasta el dia 30 de Junio de 1881, a las 3 p.m., dia y hora en que seran abiertas en presencia de los interesados que quieran asistir al acto.

3º Todas las traviesas seran de madera dura, quebracho o urunday, bien rectos, de seccion reotangular, sin altura y de caras perfectamente Planas.

4º Las dimensiones tipicas de las traviesas seran: dos metros setenta centimetros (2m 70) de largo: veinte y cuatro centimetros (0m 24) de ancho y doce centimetros (0m 12) de espesor.

5º Se admitira una tolerancia de cinco centimos [0m 05] en el largo, dos centimetros (0m 02) en el ancho y un centimetro (1m 01) en el espesor, asi como los que presenten una curvatura cuya flecha medida normalmente a cualquiera de las caras laterales no esceda de seis centimetros (0m 06). Se sobrenteniende que las medidas establecidas deben tomarse libres de samago o albura.

6º La tolerancia a que se refiere el articulo anterior, solo sera aplicable a un numero de traviesas que no esceda del 20 p. cent en cada entrega, es decir, que el ochenta por ciento debera ser de las dimensiones tipicas que se establecen en el articulo cuario.

7º Las traviesas seran entregadas por el empresario en la estacion del ferro carril Central Argentino en el Rosario de Santa Fe, donde se efectuara la clasificacion y recibo de los que se hallan dentro de las condiciones de contrato, por el empleado o empleados del Gobierno, encargados al efecto por el Director de las obras de prolongacion.

8º Seran de cuenta del empresario todos los gastos en peones que origine la clasificacion y carga de las traviesas en los wagones del Central Argentino.

9º Toda traviesa que presente rasgadura o signo de putrefaccion, o que no este en las condiciones determinadas en el conirato, sera rechazada sin accion a reclamo alguna.

10º Toda traviesa rechazada sera sacada inmediatamente del recinto de la estacion de Central Argentino por cuenta del empresario, y en caso de no verificarlo en el termino de las veinticuatro horas siguientes a la en que tuvo lugar el rechazo, el encargado de la clasificacion y recibo, tendra el derecho de hacerlos sacar por cuenta del empresario, o de inutilizarlos de modo que no puedan servir para la via.

11 Las traviesas que tengan dimensiones mayores que las indicadas en el inciso 2º pero que satisfagan a las demas prescripciones del contrato, podran admitirse al mismo precio que las de contrato, siempre que tengan aplicacion conveniente a juicio del director de los trabajos.

12 Las traviesas se entregaran en seis periodos y en las cantidades siguientes:

1er	entrega	3000 traviesas
2	id	7000 id
2	id	10000 id
4	id	10000 id
5	id	10000 id
6	id	10000 ir

Su primera entrega debia verificarse dentro de los treinta dias de la fecha de la aprobation del contrato y las siguientes mensualmente, de modo que el total debera quedar entregado en un plazo de seis meses desde la fecha de la aprobacion del contrato.

13 Si el empresario no entregase mensualmente o en cada periodo, el numero de traviesas que se indica en el precedente articulo, abonara por cada traviesa que falta y por cada dia de retardo, un centavo fuerte de multa—Queda entendido que no podra el empresario completar el numero de traviesas que le falte de una cualquiera de las entregas, antes de haber verificado la entrega total de las que corresponden al periodo siguiente.

14 Si el empresario no entrega mensualmente el numero de traviesas fijado como minimo, el director de las obras de prolongacion podra adquirirlas en donde las hubiese en las condiciones del contrato, por cuenta de dicho empresario y hasta la concurrencia de su obligacion, usando al efecto del deposito de garantia, asi como del diez por ciento, retenido sobre cada pago, con arreglo a la ley de obras publicas, sin perjuicio de la multa establecida en la base anterior y de de la accion por danos y perjuicios a que hubiere lugar.

15 Los proponentes indicaran el precio de cada traviesa en peso fuerte de curso legal (billetes del Banco de la Provincia de B. Aires) en cuya moneda se verificaran los pagos.

16 El proponente a quien se adjudique esta licitacion, debera depositar en la sucursal del Banco Nacional en el Rosario de Santa Fe a la orden del Director de las obras de prolongacion, ingeniero Guillermo Villanueva, la cantidad de cinco mil ps. fts. en billetes de curso legal, lo que quedara como garantia del cumplimiento del contrato y no podra ser retirado hasta estar cumplidas las obligaciones en el estipuladas—Dicho dep sito debera ser ademas reintegrado cada vez que sea ocupado en todo o en parte, en uso de la facultad espresada en la base 14.

17 El pago de las traviesas recibidas se verificara, mensualmente del 5 al 10 de cada mes en la Tesoreria de la Administration del Andino, en Rio Cuarto, de conformidad con el certificado que espidan los encargados de la recepcion por las entregas del mes ant rior, con el visto bueno del Inspector, previa la liquidacion con arreglo a las condiciones del contrato, lo que prescribe la Ley de Obras Publicas y la correspondiente orden de pago del Director de las obras de prolongacion.

18 Terminado el contrato y efectuada la liquidacion correspondiente, el empresario tendra derecho a exigir la devolucion del diez por ciento retenido y la cantidad depositada en la sucursal del Banco Nacional, descontando las sumas que con arreglo al contrato se hayan deducido por multas.

19 No se tomara en consideracion las propuestas que se presenten sin los requisitos indicados o que se aparten de estas bases, ni se admitira esplicacion ni rectificacion alguna, verbal o escrita, una vez abierto el primer pliego de las propuestas presentadas.

Art. 1º La racion se compondra de los articulos siguientes en las proporciones que se espresan —

RACION TIPO.

1380	gramos igual a 3	lb.	carne
0460	"	1	" galleta
0460	"	1	" maiz pizado

EQUIVALENTES.

0057	gramos igual a 2	onz.	arroz
0260	"	1/2	lb. pulenta
0014	"	1/2	onz. cafe molido
0028	"	1	" yerba
0057	"	2	" azucar
0057	"	2	" sal

Todos los articulos seran frescos y de buena calidad, debiendo ser ademas la carne de animal sano y no cansada y de calidad de blanca arriba.

La galleta sera de harina de trigo sin mezcla y de 10 on libra. El azucar sera blanca.

Art. 2º Las raciones se distribuiran diariamente a los trabajadores en los campamentos o en el lugar de los trabajos en la forma y oportunidad que determine la Direccion, debiendo en todo caso coustar cada una del total de los articulos componentes, ya sea que se distribuya a rancho (cocido) o en crudo, de conformidad con la racion diaria.

El trabajador o la Direccion podra pedir el equivalente de cada articulo de la racion tipo, segun la anterior especificacion y el contratista estara obligado a hacer esta sustitucion por el precio estipulado.

Art. 3º El contratista estara obligado a establecer y mantener esta proveduria con los elementos y personal suficiente para atender este servicio en toda la linea, en cualquier momento y en la estencion que sea requerida a satisfaccion de la Direccion.

A este objeto mantendra en cada campamento un agente permanente, encargado de recibir y hacer llenar los pedidos que se lo hagan en la oportunidad debida.

Estos pedidos seran hechos con la anticipacion necesaria y en la forma que lo estab ezca oportunamente la Direccion, debiendo en todo caso especificar la clase de racion (cruda o cocida) su numero y lugar de distribucion.

Art. 4º La Direccion tendra absoluta intervencion y control de este servicio, a objeto de verificar si los articulos de consumo son de la clase especificada y si el racionamiento se hace con arreglo a la relacion diaria y en la proporcion o cantidad del contrato.

Todo articulo de mala calidad o sospechoso de nocivo sera rechazado en el racionamiento y prohibido su uso en toda la linea.

Art. 5º La provision diaria correspondera a un numero de cien raciones como minimum y a un maximum de 3000, tres mil variable, en el intermedio segun el personal empleado; este maximum podra aumentarse con aviso de un mes anticipado y por el precio estipulado.

Art. 6º Los pagos se haran mensualmente en la oficina de la Direccion en Tucuman, en los primeros ocho dias de cada mes, por las raciones entregadas en el mes anterior, segun certificado espedido por el agente autorizado por la direccion de los trabajos, previa la tramitacion correspondiente.

Art. 7º No se permitira la introduccion de licores espirituosos a los campamentos, su venta, ni la de armas de cualquiera clase.

Art. 8º Los presupuestos especificaran el precio por racion, en pesos fuertes de curso legal, en cuya moneda se verificaran los pagos.

Art. 9º Cualquiera dificultad, deficiencia o demora por parte del contratista en el cumplimiento de su contrato sera llenada o corregida por el encargado del trabajo en la forma estipulada por cuenta del empresario sin lugar a reclamo.

Los gastos que se originen por esta causa seran cubiertos con el deposito de garantia y con el 10 o/o de retencion sobre cada pago, que debera hacerse de conformidad con lo establecido en la Ley de Obras Publicas; todo sin perjuicio de las demas acciones a que hubiere lugar segun contrato.

El deposito de garantia sera reintegrado cada vez que sea usado en todo o en parte, en virtud y a los objetos de la estipulacion anterior.

Art. 10. El contrato no podra ser tranferido sin la aprobacion del Gobierno.

Empezara a regir a los quince dias de aprobado y durara mientras los trabajos de prolongacion se efectuen por administracion en la forma autorizada. Podra ser rescindido con tres meses de aviso anticipado.

Art. 11. El diez por ciento que se retiene de cada certificado mensual sera devuelto al fin de cada año en su totalidad al verificarse la liquidacion anual, si no ha sido necesario disponer de una parte de esta al objeto indicado en el Art. 9º; en el caso contrario sera retenido hasta la liquidacion final del contrato.

Art. 12. Las propuestas se recibiran en la oficina de la Direccion en Tucuman, hasta el 30 de Junio de 1881 a las 3 p.m., dia y hora en que se abriran en presencia de los interesados que quieran concurrir al acto.

Una vez leidas las propuestas, se numeraran y formaran por el Director de los trabajos, se empaquetaran y sellaran para ser remitidas al Ministerio del Interior, para su resolucion con el acta de su referencia.

Art. 13 Las propuestas se presentaran en pliego cerrado, firmado por el proponente o proponentes, y seran acompanadas de un certificado de deposito en la sucursal del Banco Nacional en Tucuman, por la cantidad de los mil pesos fuertes en billetes a la orden del Director de las obras de prolongacion, ingeniero Matias G. Sanchez, segun lo dispuesto en la Ley de Obras Publicas.

Art. 14 El proponente que obtuviere la adjudicacion, de la licitacion, debera hacer el deposita en la sucursal del mencionado Banco y a la orden del Director de los trabajos, hasta la cantidad de diez mil pesos fuertes de curso legal en garantia de lo estipulado en el contrato y a los efectos de lo prscrito en el articule 9º.

Art. 15 No se tomaran en consideracion las propuestas que se presenten sin los requisitos indicados o que se aparten de las presentes bases de licitacion, ni se admitira esplicacion, verbal o escrita, una vez abierto el primer pliego de las propuestas presentadas.

AVISO OFICIAL

Ministerio del Interior

LICITACION

En la secretaria del Ministerio del Interior se recibiran propuestas para la provision de 150,000 (ciento cincuenta mil traviesas) madera dura para la prolongacion del Ferro Carril Central del Norte, con arreglo a lo dispuesto en el articulo 2º de la ley de obras Publicas y las siguientes bases—

1—Las propuestas se presentaran en pliego cerrado con la firma del proponente o proponentes y seran acompañadas de un documento en que conste haber efectuado el deposito en el Banco Nacional de mil doscientos fuertes (1,200$f.) en fondos publicos nacionales de acuerdo a lo que dispone la ley de obras publicas y lo ordenado por el Ministerio de Hacienda.

2—Las propuestas se entregaran al Escribano Mayor del Gobierno Nacional en la Capital de la Republica hasta el dia 22 de Mayo de 1881 a las 3 p.m., dia y hora en que seran abiertas en presencia de los interesados que quieran asistir al acto.

3—Todos las traviesas seran de madera dura (quebracho o urunday) bien rectas de seccion retangular, cortados a sierra por lo menos las caras de asiento y pudiendo las otras ser labradas a azuela con tal de que sean planas.

4—Las dimensiones tipicas de las traviesas seran: un metro ochenta centimetros (1 m. 80) de largo, veinticuatro centimetros (0 m. 24) de ancho y doce centimetros (0m. 12) de espesor.

5—Se admitira una tolerancia de (0m 05) cinco centimetros en el largo, (0m 02) dos centimetros en el ancho y (0m 01) un centimetro en el espesor, asi como las que presenten una curvatura cuya flecha medida normalmente a una cualquiera de las caras laterales no esceda de (0m 06) seis centimetros. Es entendido que las medidas seran tomadas libre de samago o albura y que la seccion de la traviesa debe ser toda del corazon o leño.
